# **Specialty Research Committee**

The new Specialty Research Committee works to recognize the significant, but less frequently recognized, contributions to the cause of American freedom, by men and women residing within North America and in other countries during the Revolutionary War. This effort will lead to building a DAR membership reflective of the remarkable diversity of our country—strengthening our bonds of service and friendship.

Soldiers at the siege of Yorktown, including 1st Rhode Island Regiment soldier (left), 1781

## **Specialty Research Areas Include:**

African American Research  
French Research  
French Canadian Research  
Jewish Research  
Native American Research  
Spanish Research

The objective of this committee is to assist our members and the public in understanding the contributions of underrepresented Patriots of the American Revolution. We will help with education and advanced application research to expand awareness and membership.
